IT FOR ALL – AI BASIS OF ARTIFICIAL INTELLIGENCE IN APPLICATION

Have you heard of artificial intelligence (AI), but don't know exactly what it is and that we have to deal with it all the time in everyday life?

We will show you how you can use AI technologies in your everyday work life, what role AI plays in work processes and what opportunities and challenges are associated with it.

CONTENT

- Introduction to artificial intelligence and its applications
- Creative uses of artificial intelligence
- Practical application of AI in Office and tools
- AI and the jobs of the future

INCLUDED

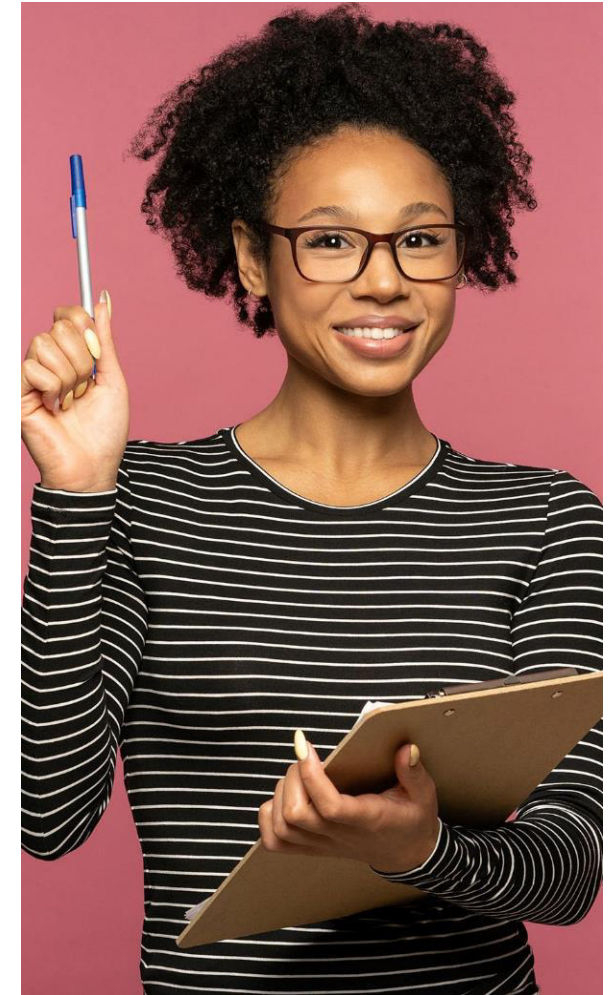

- Microsoft Office 365 for team collaboration

BENEFITS

At the end of this qualification, you will be able to better understand AI technologies, use them in your everyday professional life and critically reflect on the associated opportunities and challenges.

TYPE OF DEGREE

After successful participation you will receive a certificate.

DURATION

31 teaching units, 45 minutes each

We would be happy to advise you on funding options.
