QUALIFICATION FOR EVERYDAY CARE

Module 1: Recognised everyday assistance

You will acquire basic knowledge in the care sector and take part in an orientation internship and a first aid course. After completing the course, you are qualified enough to continue with module 2 or module 4.

Module 2: Carer

In accordance with §53c SGB XI, you can work as a so-called additional carer in inpatient care facilities. You can now mobilise and activate people in need of care.

Module 4: Care assistant/nursing practitioner

After successfully completing this module, you will support your colleagues on the care wards in various areas of work.

Modules 3, 5 and 6:

We will gladly continue to support you in your employment relationship. With further modules, you can deepen your existing knowledge with us in familiar surroundings.

During the qualification period, you will be closely supervised by our experts, who will be on hand to answer any questions or uncertainties you may have. In addition, a coach will be at your side during each internship to help you reflect on the practical phase.

CONTENTS

Module 1: Basic knowledge for daily living assistants, carers and care practitioners

- Content: First aid course, orientation internship, basic knowledge in the care sector

Module 2: Qualification of carers

- Content: Basic and advanced courses qualify carers to look after people in need of care, company trials
